

Seeking position as: **Senior Software Architect**

To whom it may concern,

With 12 years of demonstrated experience as a software developer, with the last several years operating at a senior level, I believe I will make a great addition to your team.

I have a strong sense of leadership and an excellent understanding of the responsibilities my skill set demands in the workforce. I take initiative on finishing projects at the utmost quality, while keeping them on time and on budget. I am capable of working on both large and small-scale projects and I have a diverse set of skills and knowledge to apply to all areas of computing.

Please take the time to review my resume and feel free to ask any questions you may have.

Sincerely,

A handwritten signature in black ink that reads "R Covert". The signature is stylized with a large, looped 'R' and a horizontal line extending from the end of the 't'.

SENIOR SOFTWARE ARCHITECT

Senior Software Architect with extensive experience designing, coding, testing and supporting next-generation software solutions for the web, desktop and mobile environments. Proficient in an assortment of technologies, including ASP.NET C#, JSP Java, Android SDK, PHP, Coldfusion, MSSQL Server, MySQL, XML, jQuery, managing Windows, Mac OS X and Linux servers. **DBA skills include:**

- MSSQL Server and MySQL Administration (SQL Kung Fu master)
- Performance Tuning
- Data Security, Transfer, Backup & Recovery

EXPERIENCE

InsightU, www.insightu.com (now part of Web-Impact / Evoluent) 11/2009 – 08/2010
Senior Software Developer

Primary responsibility was the development of a Performance Evaluation application that utilized the web for front-end access. The application ran on top of a service-based workflow engine I developed that is capable of executing any type of WF (Windows Workflow) process.

Key technologies used:

- SQL Server
- Visual Studio 2010
- ASP.NET 3.5
- IIS6 on Windows Server 2003

Punch Integrated Communications Inc. (www.punch.ca) 04/2001 – 10/2009
Software Engineer

Hired right out of university, I spent 8 years perfecting my ability to design, develop and complete software development projects on time and under budget. Primary responsibilities included maintaining the vast number of websites I created for Punch's clients over the years, ranging from early Perl/Linux/MySQL systems up to JAVA and ASP.NET hosted environments running on advanced hardware architectures.

Key technologies used:

- Perl
- Linux (RedHat) server
- MySQL
- JSP / Beans
- TomCat Apache server
- ASP.NET
- IIS 6 on Windows Server 2003

EDUCATION & TRAINING

University of Guelph, Guelph, ON 04/2001
Bachelor of Computing, (Renamed from "Bachelor of Computer Science")
